

Current water volunteers want to share our thanks!

Hi Roger, John, Doug and/or the rest of the FDR Directive,

I'm Yee Chen, a current Healthy Environments volunteer serving in a campo of Altamira in Puerto Plata. I participated in the FDR workshop at the 45th anniversary and I just wanted to share my thanks, on behalf of the 517-05-02 water/sanitation group, thanks so much for donating the Pipe Threader and Pipe Cutter set. Without it, we would be making countless trips down the mountains to the closest hardware stores capable of threading just one or two tubes at a time. I can say that for some of us, that could be at least a 2 hour hike followed by motorcycle and /or multiple guagua rides with a galvanized tube on your back – not easy work.

Again, thanks for your support and I look forward to meeting more of you in the future!

Take care,
Yee
